Event Report

Celestial Frames

- Space Documentary Screening

Organized By:

Aerospace Club, MITS-DU Gwalior

Event Date: 6th September 2025

Venue: SH-4, MITS-DU

1. Event Overview

The Aerospace Club of MITS-DU successfully organized an educational and visually enriching program titled **“Celestial Frames – Space Documentary Screening”** on **6th September 2025** at **Seminar Hall-4 (SH-4)**.

The event was designed to provide students with an opportunity to explore the vast world of **astronomy, aerospace, and space technology** through a high-quality documentary film. The cinematic presentation showcased deep-space phenomena, rocket engineering, interplanetary missions, astronaut experiences, and the evolution of modern space science.

The event began with the registration process and welcoming of the participants. The hall was filled with enthusiastic students from various departments, indicating the growing interest in aerospace-related domains within the institute.

The documentary screening served as a gateway for students to visualize scientific concepts beyond theoretical textbooks. It helped them develop a deeper understanding of galaxies, black holes, space missions, satellites, and human efforts to explore the cosmos.

Along with the documentary, the event included an interactive quiz session, open discussions, and a presentation highlighting the past achievements of the Aerospace Club. The event concluded with active student engagement, feedback collection, and an invitation to join upcoming club initiatives.

The overall ambience, participation, and coordination made the event a **memorable, informative, and inspiring experience**.

2. Event Poster.

The poster is a collage of space-themed images. The top left shows a blue rocket icon and the word 'EROSPACE' in green. The top right features a large planet with orange and white bands, a satellite, and the Indian Space Research Organisation (ISRO) logo with the motto 'SPACE IS WORKING'. The middle left shows an astronaut lying on the lunar surface. The middle right shows a person standing on a colorful, swirling nebula. The bottom left shows a white, wing-like object floating in space. The bottom right shows a golden, seated figure in space and a technical diagram of a spacecraft with labels like 'SPYGLASS', 'HORIZONTAL STABILIZER', 'ELEVATOR', 'DOCKING', and 'INSTRUMENTS & ORBITS'.

EROSPACE

**CELESTIAL FRAMES
SPACE DOCUMENTARY SCREENING**

EXPLORE THE INTERSECTION OF ENGINEERING AND ASTROPHYSICS THROUGH
DOCUMENTARIES THAT ILLUMINATE THE SCIENCE BEHIND SPACE EXPLORATION

ENTRY FEE:
₹19 Per Guest | ₹49 Triplet

**VENUE: SH-4
DATE: SATURDAY,
6TH SEPTEMBER 2025**

3. Objective

The primary objectives of this event were as follows:

a) Promote Space Awareness

To create awareness among students about the rapidly growing fields of **astronomy, aeronautics, astronautics, and space exploration**, and encourage scientific thinking.

b) Inspire Curiosity & Innovation

To inspire students through visually appealing and scientifically rich documentary content, motivating them to think about future possibilities in aerospace engineering, research, and space missions.

c) Exposure to Modern Aerospace Developments

To help students understand the latest advancements in **rocket propulsion, satellite systems, lunar missions, Mars exploration, deep-space observatories, and AI in space research**.

d) Encourage Participation in Club Activities

To introduce new students to the Aerospace Club's initiatives, future plans, and technical events, fostering teamwork and skill development.

e) Develop Analytical & Discussion Skills

Through the interactive quiz and discussion session, students practiced critical thinking, scientific reasoning, and conceptual understanding.

f) Strengthen Club Visibility and Engagement

To bring together students with a passion for space and technology, strengthening the club's presence and building a strong community of learners.

4. Summary

Following the documentary and quiz, a mini-conference-style discussion was organized to engage students in scientific dialogue. This segment allowed participants to reflect on what they learned and broaden their understanding.

Key highlights of the conference summary include:

a) Discussion on Documentary Themes

Students discussed topics like **planetary formation, black hole physics, satellite systems, astronaut training**, and the importance of space missions in modern science.

b) Knowledge Sharing by Club Members

Senior club members explained concepts shown in the documentary with additional real-world examples, such as recent ISRO missions, NASA's Artemis program, and private space companies like SpaceX and Blue Origin.

c) Career Guidance & Opportunities

Faculty and club representatives briefly highlighted career paths in **aerospace engineering, astrophysics, satellite communication, defense research, aviation, and space research organizations**.

d) Questions, Doubts & Open Interaction

Students actively asked questions related to rockets, astronautics, life beyond Earth, telescope technologies, and aerospace careers. This open interaction helped clarify doubts and motivated students to engage more deeply with scientific topics.

5. Acknowledgements

The Aerospace Club expresses heartfelt gratitude to all individuals and teams whose contributions made this event a grand success:

a) Faculty Coordinators

For their constant support, guidance, and encouragement throughout the planning and execution of the event.

b) Student Organizers & Volunteers

Their teamwork, registration handling, technical arrangements, and smooth management was essential to the event's success.

c) Participants

For attending the session in large numbers, showing curiosity, asking thoughtful questions, and making the event lively and interactive.

d) Supporting Staff

For arranging the venue, projector setup, audio support, and other essential facilities that ensured the program ran flawlessly.

The club looks forward to continued participation and support for future aerospace and space-science activities.

6. Glimpses of the Event

7. List of Students Attended the event:

SNo.	Name	Enroll
1	Paryas Jain	BT AI 2501091
2	Tanuj Agrawal	BT AI 1147
3	Anshu Gupta	BT ET 2501027
4	Aashi Tomare	34
5	Indramani Markam	BT AD 2501030
6	Akshat Soni	BT AD 2501010
7	Yash Jain	077
8	Shubh Yadav	BT MC 2501134
9	Kunal Rajput	BT IO 2501075
10	Shivam Baghel	BT MC 2501128
11	Surya Pratap	BT MC 2501040
12	Kopal Shah	BT IO 2501067
13	Thushar Chaudhary	BT AI 2501148
14	Aarohi Gupta	BT IO 2501004
15	Sakshi Baisrangi	BT IO 2501104
16	Kajol Chauhan	BT ET 2501063
17	Pragati Chauhan	BT CS 2501103
18	Sohil Sahu	BT AI 2501139
19	Kratika Joshi	BT AI 2501074
20	Vipin Mishra	BT EL 2501121
21	Satayabhan S. Rathore	BT ME 2501055
22	Abhay Singh	BT MC 2501002
23	Ayushi Singh	BT CE 250100
24	Prasiddhi Badole	BT CM 2501010
25	Om Nema	BT IT 2501100
26	Saksham Sarang	BT CS 2501123
